Bridging the Gap

The massive demand for complementary training in Technical Management graduates in Africa specifically Nigeria indicates a mismatch between academic education and industry requirements. The need for organisations and academic institutions to continuously train their staff and students in this era of rapid changes cannot be over-emphasized.

Odera Academy provides flexible and interactive programs with blended learning solutions that bridge the gap between the academics and the industries' knowledge requirements. Our programs include technical and management courses, offered virtually and physically.

Odera Academy provides various opportunities to trainees and professionals alike so that they can be well groomed and competent enough to work in the professional environment.

At Odera...

We provide a comprehensive array of non-destructive testing (NDT) training and examination in collaboration with world renowned training organisation, IMechE Argyll Ruane in the UK.

The long-term plan is to build a highly professional local team with international credentials acceptable worldwide and achieve the desires and aspirations of Local Content Regulations in Nigeria and Africa as a whole.

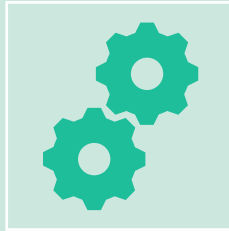

CGGroup
ODERA

Take Courses...

IN A SERIES OF NDT SPECIALIZATIONS THAT WILL ENABLE YOU MASTER SKILLS. SKILLS THAT WILL MAKE YOU RELEVANT IN INDUSTRY. ALL YOU NEED DO IS TO REGISTER FOR A COURSE.

OUR SYSTEM PROVIDES THE FLEXIBILITY TO STAGGER YOUR TRAINING. OUR EXPERTS WILL PROVIDE TOOLS THAT WILL ENABLE YOU TRACK YOUR PROGRESS.

Hands-on Project

We will take you into our well-organized system and make you hands-on and thus suitable for industry specialized requirements.

We have the technical expertise and various specialized equipment to enable you achieve this objective and be competitive in the NDT and inspection Engineering professional fields.

WHY TRAIN WITH US?

Practical Training
By Industry
Experts
